Club Seven Fifty '*Empowers YOU With Prosperity*'
It Pays To Be A Member

We would like to say, THANKS, for reviewing the Club Seven Fifty membership opportunity. When you accept your invitation and join Club Seven Fifty we trust your club membership will help provide you with extra money that you can use to pay bills, travel, or use in any way you choose once your application is processed and you start receiving monthly payments directly to your chosen address *plus* Referral Fees. Your membership in Club Seven Fifty not only brings you money each month, but also provides you with other benefits and money making opportunities through out the term of your membership.

Club Seven Fifty, a wholly-owned subsidiary of Carlton Group*, is a private, members-only **High Yield Return-On-Membership** opportunity. We are **NOT** an investment company, loan company, bank, or securities firm. Club Seven Fifty is a private, members only, club and is not a business, therefore Club 750 is not a member of the Better Business Bureau or any other reporting agency. You do not make an investment with Club 750, you pay a membership fee only. The sole purpose of Club Seven Fifty is to benefit members with monthly payments, referral fees, and to ***empower every member with prosperity.*** We have been successful at that since early 2002 with no member going unpaid. Through the use of compound interest, gifts, fees, and other avenues, we pay our members better than any other club we know of, and probably better than any institution in your neighborhood.

(*Carlton Group/James Carlton with the same mailing address since 1971)

You Have Been Recommended, and.....*You Are Invited To Participate!*

Why Should You Participate?.....Bottom Line is ***Money and Benefits!***

We don't give you a long drawn out invitation filled with 'rags to riches' stories, or try to tell you what you can and cannot do, or where you will or will not be in a few years from now. After all, only you can decide those issues....not us, nor anyone else....no matter what they have to offer. We tell you in a very straight forward manner what we offer, and what the benefits can be. We assume that you are in control of your life, or want to get control of your life, are responsible for your decisions, can recognize opportunity, and can make a decision. If you are one of those persons that need eight pages of hype to get your attention.....then you probably don't belong in our club.

You Receive A Check Each Month !

Receive Money Two Ways!

1. Each Club Seven Fifty membership covers a membership period of 24 months forward from the date of membership acceptance. When you submit your minimum membership fee (\$750) and participate in our club you can receive a membership benefit payment mailed directly to you each month for up to 24 months for each membership you have with the club. Your second membership fee of \$750 must be paid within 11 months of membership activation in order to keep your benefits active. Your final membership fee must be paid within 23 months of membership activation in order to keep all memberships open. Each membership payment must be the full amount. No weekly, monthly, or periodic payments less than the amount due will be accepted. There is no maximum on number of memberships. However, each 24 month membership in the club is \$750 per 12 month period plus final fee. Membership applications can be made to the club as often as you choose. No membership application received will be combined with previous memberships. Each Club 750 membership app received will establish one new and different membership account. Example: If we receive a different membership application from you on Monday, Wednesday, and Friday then you will have 3 accounts and you will receive 3 different payments.
2. *Plus*.....you receive a flat one-time referral fee of \$75 for each new* membership paid by persons you refer to us with no limit on the number of persons you can refer. (*Referral fees are not paid for referring current Carlton Group customers)

Being a member of Club Seven Fifty certainly has its rewards by creating a positive flow of money into your life.

Isn't that what you're really looking for?
